Professional Summary:

A software developer with over 6 years of experience in full-stack and back-end development. Strong expertise in PHP, Laravel, JavaScript, and SQL. Adept at designing and implementing scalable, efficient, and secure solutions. Passionate about optimizing performance, troubleshooting complex issues, and collaborating with cross-functional teams to deliver high-quality software.

Professional Experience:

Software Developer at Ericsson | March 2022 – Present

- Develop, maintain, and enhance enterprise software solutions ensuring scalability and efficiency.
- Collaborate with cross-functional teams to define requirements and implement innovative features.
- Work with various teams to design and implement comprehensive solutions for effective network monitoring and auditing.
- Optimize system performance, debug issues, and ensure robust code quality.
- Maintain comprehensive documentation for software systems and development processes.

Back-End Developer at Brmaja | March 2020 – March 2022

- Designed and developed RESTful APIs and backend systems for high-performance applications.
- Integrated third-party services and optimized database performance using SQL.
- Worked closely with front-end developers to deliver seamless and efficient applications.

Full-Stack Developer at Mobimed | November 2018 – February 2020

- Built responsive web applications using PHP, Laravel, JavaScript, and modern front-end technologies.
 - Ensured cross-platform compatibility and mobile responsiveness.
 - Developed and maintained secure, efficient database structures to support application functionality.
-

Education:

Bachelor's degree in mathematics and computer science

Faculty of Science, Al-Menoufia University | September 2011 – July 2017

Technical Skills:

- **Programming Languages & Frameworks:** PHP, Laravel, JavaScript, jQuery, HTML, CSS, Bootstrap, Ajax
 - **Database Management:** MySQL, SAP IQ
 - **Development Tools:** Git, GitHub, REST APIs, Docker
 - **Operating Systems:** Linux, Windows
 - **Development Practices:** Agile methodologies, Software Architecture and Design Patterns
-

Soft Skills:

- Problem-Solving & Critical Thinking
 - Adaptability & Creativity
 - Team Collaboration & Communication
 - Attention to Detail & Time Management
-

Languages:

- **Arabic:** Native
 - **English:** Professional Proficiency
-

Interests:

- Software Architecture & Scalability
- Open-Source Contributions & Technology Trends
